

PRECISION ASSEMBLY AND INTEGRATION

Zepher Inc. is a design, integration and program management company with proven capabilities to address common manufacturing challenges. Our dedicated team provides an entrepreneurial approach to business operations.

- Turnkey product assembly
- Tight tolerance, high variability, hands-on unit builds
- Systems integration (mechanical, electrical, pneumatic, hydraulic, composites)
- Complete functional testing
- Product refurbishment
- Depot maintenance services
- Complete production fulfillment solutions
- AS9100C quality system

ZEPHER'S PRODUCTION FLOW

From design to full rate production, Zepher delivers quality and value at every stage. See how our precision assembly and integration core competency aligns with our process:
